Application is hereby made for a Building Permit as required by the 2015 International Building Code, and any other applicable City ordinances, for the erection, moving or alteration and use of buildings and premises. In making the description of the proposed new or altered uses and /or buildings, applicant agrees that the permit applied for, if granted, is issued on the representations made herein, and that any permit issued may be revoked without notice on any breach of representations or conditions. The applicant further agrees to furnish all building plans and documents as may be required by the Building Official of the City.

The City of Fort Payne has adopted the following construction codes. Inspections by City building officials are necessary on work in progress to ensure compliance, and all applicable permits should be obtained before work begins. If a Building Permit is issued, it should be publicly posted at the job site in a place that can be easily seen.

2014: National Electric Code, 2015: International Residential Code; International Building Code; International Existing Code; International Plumbing Code; International Mechanical Code; International Fuel Gas Code; 2021: International Fire Code
